REPAIR / SERVICE FORM

Caring for your Timepiece

It is recommended that you have your timepiece serviced every 4-5 years per mechanical, or 8-10 years per quartz (or as recommended in your original warranty booklet). This prevents excessive wear to mechanical parts and maintains the factory water resistance levels.

Please ship to:

Epworth Building, Suite 423, 33 Pirie Street, Adelaide, SA 5000
We highly recommend sending your timepiece via an insured courier, or Express Australia post with signature on delivery. This will cover your item until it arrives in our workshop and comes under our responsibility.

We will contact you once the repair is completed to arrange payment and your preferred method of return postage.

Our usual method is Express Postage with signature on delivery (\$20.00), as you will be able to collect from the Post Office if the delivery is missed.
